INFORMATION ABOUT THIS SERVICE

Description

Alltel 24/7 PHONE ANSWERING is a live answering service that manages all your calls; and works as an overflow, after-hours, or emergency answering service by redirecting your calls to our Australian-based call centre whenever you need it. Professional live operators answer calls for you, take messages, and forward messages to you via email and even SMS if required.

PA TRANSFER is a complete live answering service where live operators check your availability before connecting the call to you. If you are unavailable, a message is taken and provided via email & SMS.

Booster features can be added to your service for a fully customised solution.
